Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

Specification

1. This application does not contain an abstract of the disclosure as required by 37 CFR 1.72(b). An abstract on a separate sheet is required.
2. Title for each separated section of the specification is required. For example, Background of the Invention, Summary of the Invention.....

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Both method claims recite a narrative of what happens in passive terms. It is not clear and distinct as to which method step is actually being performed and claimed. Per USPTO Practice, a process claim should indicate what acts comprise performance of the method. For example, the method should be defined in terms of actively recited steps, such as "compiling an order batch, creating identification codes, reading, sorting, forwarding....."

It is strongly suggested that claims 1 and 2 be rewritten in the proper form adhering to US normal practices.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1 and 2, as best understood are rejected under 35 U.S.C. 102(b) as being anticipated by Rosenbaum et al. 5,031,223.

Rosenbaum discloses a postal sorting process per claimed invention.

Rosenbaum '223 process comprises sorting the mail pieces at a first location and assigning barcodes to the mail pieces for subsequent sorting at a second location. The process comprises forwarding a list of the barcodes to the second location via electronic means. The sorting process at the second location comprises scanning the barcodes on the mail pieces and matching the barcodes with the list of the barcodes.
